**Release of PB18 Portable Pump
with Wrap-Around Frame**

Waterous PB18 Portable Pumps with a Wrap-Around Frame will be available to order beginning on April 15, 2024. The PB18 is equipped with a Briggs and Stratton V-Twin 18HP engine with a top mounted 9-quart (9.5 L) fuel tank. Note that the PB18 with a Rail Base or No Base will have a Briggs and Stratton V-Twin 18HP engine but will not have a top mounted fuel tank. The fuel tank will ship loose.

Features and Information:

- Fuel tank is part of the Briggs & Stratton engine located on the top of the engine.
- Overall height changed to 26" (66.04 cm). Previous wrap-around model height was 21-1/2" (54.6 cm).
- Optional operator's panel includes discharge pressure gauge, compound intake pressure gauge, start and stop control, speed control and panel light.
- Optional combination spark arresting muffler and exhaust primer, fast and easy to use. Quarter-turn bronze priming valve, operates with push/pull knob.
- Optional rectangular halogen mast light - 5.625" X 2.875", 2190 candelas, 949 lumens.
- Four Models Available: PB18-2515, PB18-3030, PB18-2015 and PB18-4025
