**TECHNICAL BULLETIN  
No. 0111**

**PB18 Series Portable Pumps  
Fuel Tanks**

**Domestic Orders Only:**

Effective on orders scheduled to ship January 30, 2012, PB18 Series Portable Pumps sold in the USA must have EPA certified fuel systems components that meet the current low evaporative requirements as described by 40 CFR Part 1060. Due to this requirement, Waterous will no longer offer a fuel tank. **OEM is required to supply a fuel tank.** Contact Waterous for recommended fuel tank and fuel line manufacturers.

**Wrap-Around Frame:**

Since the fuel tank is an integral part of the wrap-around frame, the wrap-around frame will no longer be offered for domestic sales.

**International Orders:**

International orders are not affected by this EPA requirement. Fuel tanks and wrap-around frames will be available to ship internationally.
